

Easter Basket Instructions by Ilina Crouse

Supplies:

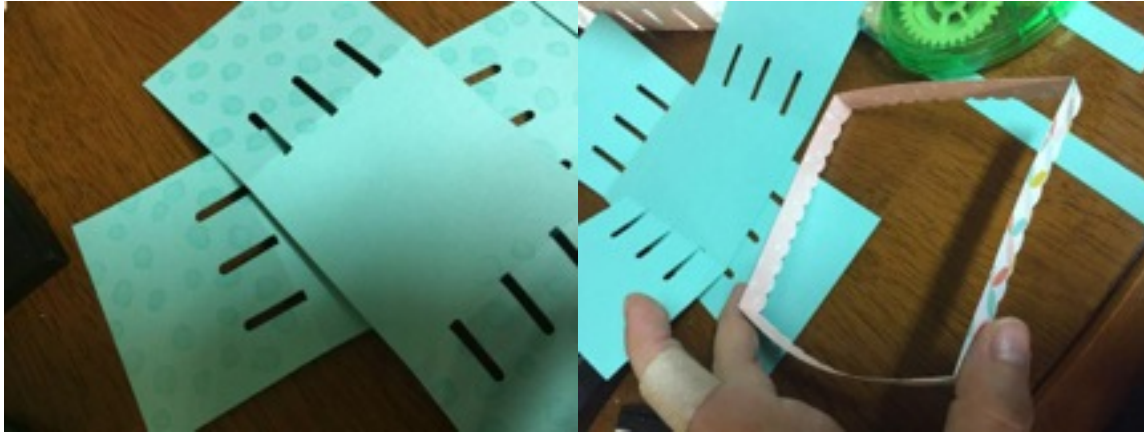

Stampin' Up! Coastal Cabana card stock, Stampin' Up! Best Year Ever Designer Series paper and accessory pack, Stampin' Up! L Die Berry Basket, Stampin' Up! Best Day Ever stamp set, Neenah classic crest smooth solar white card stock, Memento Tuxedo Black ink pad, Tim Holtz Tiny attacher, Papertrey ink Scrambled eggs stamp set, Versamark Ink Pad, Chameleon Pens Deluxe Set (YO3 Warm Sunset, OR4 Seville Orange, BG4 Aquamarine, YG3 Spring Meadow).

Instructions:

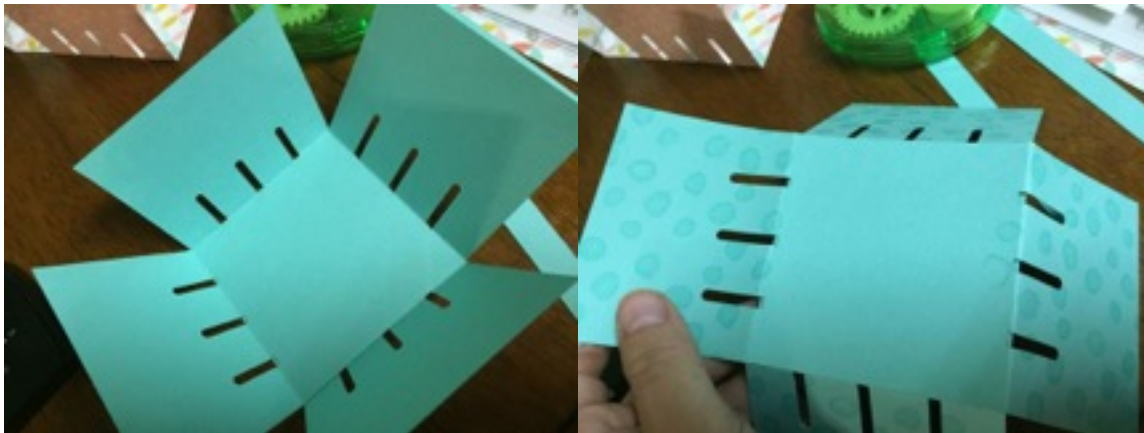

1. Start by cutting two sets of baskets using the Berry die, Coastal Cabana card stock and Best Year ever designer series paper. Fold along the scored lines.

- Stamp the polka dot background on the Costal Cabana card stock using Versamark ink. Adhere the scalloped basket border that you cut from the patterned paper to make a square.

- Adhere the two basket pieces on the bottom.

- Apply adhesive on the top edge of one side and adhere the patterned border lining up the edges on the top. Next do the same with the opposite side. Then adhere the other two sides.

5. Adhere the designer series paper liner inside the basket, one by one. Then attach the non scalloped strip from card stock as a handle using the Tiny Attached from Tim Holtz or any other mini stapler. Tie a ribbon around the top.

6. Stamp the egg image twice using Memento ink, as well the sentiment on ½” strip (then trim it to the length you need)

7. Color the one egg using YO3 Chameleon Pen, fusing it for 25 seconds. Use the brush nib and color from left to right. Then color the beak using OR4 (no fuse) using the bullet nib. Next, you can color the second egg. Color the shell with BG4 Chameleon pen that you have fused for 15 seconds, use the brush nib and color from left to right, avoiding the circles. Last, but not the least color the circles using the YG3 Chameleon Pen using the bullet point and fusing the pen for 3-4 seconds for each circle.

8. Cut out the whole egg that has the top part colored, and just the shell of the one that has just the shell colored. Layer them using foam mounting tape and adhere it to the basket. Adhere the sentiment. Fill the basket with goodies ☺ Enjoy!
