1. Print three copies of our free coloring page. One copy will become the base of the page. Cut out leaves and a bow from another two copies. We will use them to make the layered elements.

2. Cut out the circle. Start to color the image with the bullet tip using Crimson Red and Warm Sunset for the bow and berries, continue with Olive Green for the leaves, and Hot Cocoa and Bark to add the shadows on them, infusing each color before coloring for 2 seconds.

3. Color the cut out leaves and the bow in the same way. Use the double-sided foam tape to adhere the colored details to make a 3D effect.
