3. Use the bullet nib of the Cool Gray (CG8) pen infused for 7 seconds to color the mouse's face. For the scarf use the Bark (BR5) bullet nib and blend it with the bullet nib of the Hot Cocoa (BR2) pen infused for 2 seconds. Make the shadows on the coat with the bullet nib of the Warm Sunset pen and blend it with the same nib of the Summer Sun (YL2) pen infused for 3 seconds. Take the Bubble Gum (PK3) pen's bullet nib to color the cheek and the ear of the mouse without infusing.

4. Make some cuts along the hills with a craft knife to push the mushrooms under them. Adhere the bottom parts of the mushrooms with liquid glue and pop up the caps with foam tape to make them dimensional. Use white gel pen to draw some details on the images and stars in the sky.
