Valentine's Day Layout  
Instructions:

By Tanya Batrak

1. Start to color the image with the bullet tip using Bubble Gum, Warm Sunset and Bisque infusing each color before coloring for 2 seconds.

2. Cut out the heart using the craft knife or scissors.

3. Choose the patterned paper to match the photo colors and the theme. Trim the sheet with the quote and adhere it on the patterned paper. Add the stripe of paper with the “you and me” phrase. Adhere the photo on the colored heart and place it on the layout. Add some golden star confetti, enamel dots and some threads.
