Instructions

- Stamp sentiment and die cut from white card. *Tip: If your die cut does not line up exactly you can go over any white bits with a Deep Black Chameleon pen.*

- Die cut the branch wreath from brown card and several shells from bee paper.

- Fuse the brush nib of the Light Peach pen for 8 seconds and color from the outside edge of the scalloped shell down towards the bottom, then re-infuse for 5 seconds and color the long conical shell from the middle out towards the edge. Color several shells with this color and then repeat the process using the Sand pen for the remaining shells.

- Stamp over the top of the colored shells with the detail stamp corresponding to each shape using the Angel Pink Memento ink for the Light Peach shells and the Desert Sand ink for the Sand shells. Then shape using ball and leaf tools on a shaping mat.

- Place a small amount of Sand re-inker onto a craft sheet and then spritz with Colorless Blender (using mini mister). Then rub gauze through the ink pool to color, leave to dry.

- Thread the gauze around the wreath and attach to the card blank.

- Adhere the shells around the edge using foam pads and then attach the thanks sentiment to the middle.
